SOFTWARE

CERTIFICATION

Principles of UI UX Design,
Coursera (2025)

INVOLVEMENTS

Fellow – WLiT Fellowship Pokhara, (2025)
Graphic Designer – GCES GirlsTech
Member – Leo Club of Pokhara Lakeside

PROJECTS

Panaghar – Book Rental Website

Collaborated with 3 teammates to design a platform for sharing unused books in Nepal. Led UI creation in Figma, mapped user flows, and built responsive layouts.
Tools: Figma, FigJam, UserResearch

Hamro Asraya – Hostel Finder Website

Created during a student hackathon to address housing issues for students. Conducted UX research via Google Forms, then designed a platform connecting students with verified hostels to enhance trust and clarity.
Tools: Figma, Google Forms

EcoDrive – EV Car Rental UI

Developed a clean, sustainability-centered interface for renting electric vehicles. Applied minimalist design principles to highlight eco-friendly features and improve navigation.
Tools: Figma, Google Forms

Mental Health App UI

Built a calming, accessible interface prototype applying color psychology and typographic hierarchy to reduce visual stress. Developed as part of a UI/UX design challenge.
Tools: Figma

EDUCATION

Bachelor's of Computer Engineering (2022 - Present)
Gandaki College of Engineering and Science- Nepal.
